

Children's Active Wonderland – instructions for supervisors, Ilpoinen

The City of Turku organises 'Children's Active Wonderland' in partnership with Ilpoinen School's Parent Association in Ilpoinen Sports Hall. We need active parents to help put together the 'Wonderland' and make sure that children are safe while participating. Each time you and other class parents take part, your child's class receives 90 € to put towards the class excursion or something else.

Help is needed on Sundays from 4.15pm until 7.30pm.

The 'Wonderland' is open to the public from 5pm to 7pm.

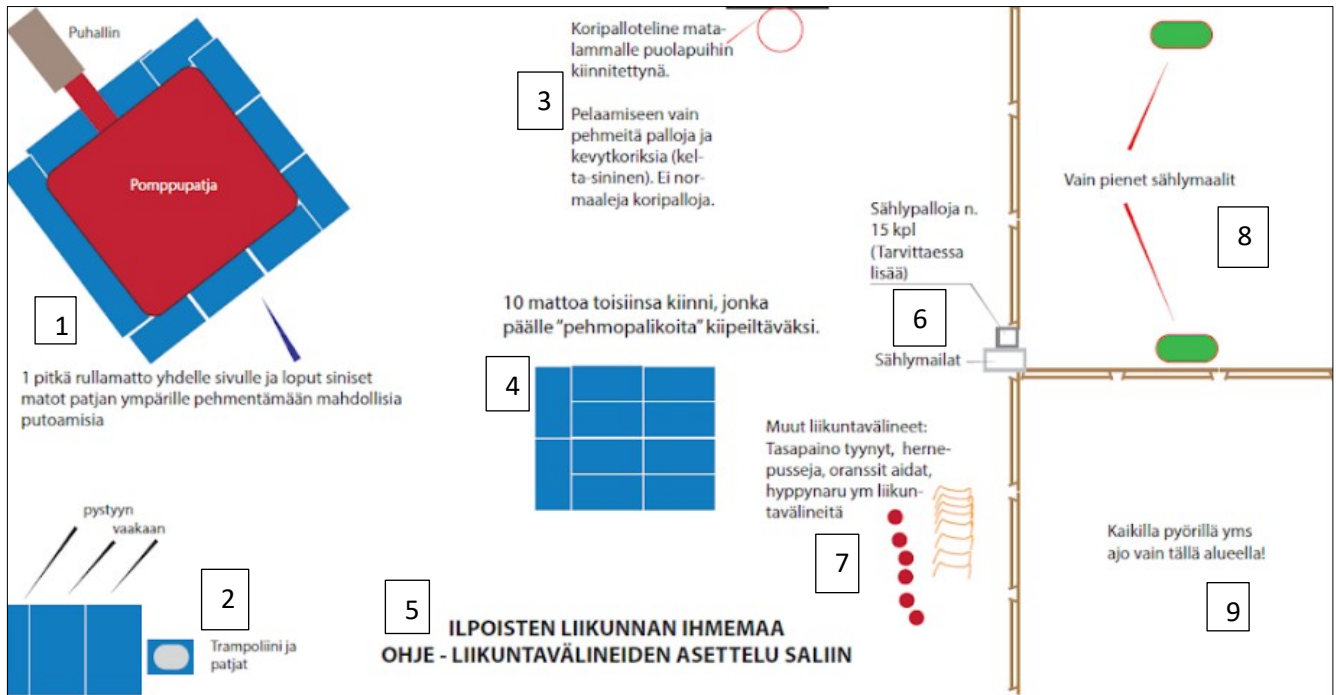

There needs to be three adult supervisors (over the age of 18) in the hall at all times. If you wish, you can also divide the work into two shifts, for example, from 4.15pm to 6pm and 6pm to 7.30pm, in which case six supervisors are required in total.

Welcome!

Thank you for signing up to be a 'Children's Active Wonderland' supervisor! Here you'll find instructions on what to do:

- The first thing to do is to take out the equipment and set up the activity stations.
- It's important that the gym is safe for visitors. Please make sure that there are no harmful materials or things, such as snuff pouches, left behind by previous users, and that the space is clean.
- Supervisors are required to wear the orange 'Wonderland' shirts provided to distinguish themselves from other participants.
- The main job is to supervise the overall operation and maintain order. Please remember that you are also there to provide customer service. Be friendly and helpful and encourage families to get involved.
- If you notice a child or guardian not following the rules, go over the instructions with them. You can also ask the Parent Association representative for assistance.
- One supervisor will need to look after the bouncy mattress and make sure it is used safely. If there are a huge number of people, follow the schedule (you'll find it in the cart).
- At the end of the evening, you'll need to collect the equipment and put it back in the storeroom. Please remember to put the equipment back neatly and in the right place.

Here you'll find a map, showing how the equipment can be arranged. It's only an example: the equipment and their locations can be changed from week to week. Feel free to use your imagination!

Please remember:

Do not take out any ropes or rings. The use of these objects poses a safety risk. Do not take out any basketballs, as these are too hard. Take out the lightweight balls instead.

1. Pump; bouncy mattress
1 long rolled-up mat on one side and the rest of the blue mats around the mattress to cushion any potential falls.
2. Vertically; horizontally
Trampoline and mattresses
3. Basketball hoop attached to the lower poles. Only soft balls and lightweight baskets (yellow and blue). No normal basketballs.
4. 10 mats attached to each other, on top of which are 'soft blocks' for climbing.
5. Ilpoinen's Active Wonderland Guide – Equipment Layout
6. Around 15 floor hockey balls (more as required); floor hockey goal.
7. Other sports equipment such as balancing cushions, bean bags, orange hurdles, and skipping ropes.
8. Only small floor hockey goals.
9. All bicycles to be used in this area only.
